

NOVEMBER 2015

CM BOARD OF EDUCATION

BOARD MEMBERS' DAY

Superintendent Cunningham read a prepared statement, in honor of School Board Members Day, recognizing the service of our Board members. He thanked them for their volunteerism and commitment to our school district. The board was acknowledged for their work on behalf of children on a night in which they welcomed over 300 students and families to the annual *Night of Leadership* event. The event, hosted by the BOE, recognizes the work of our student government leaders and encourages students to use their voices to impact their schools and community. Board members thanked the administration and community members for their support.
