NO F B @ H Q

We sent videos to first hour classes that talked about what people can do to help those in need. We also had a raffle to encourage people to bring in non-perishable foods. This would help because it would give people an incentive for donating food. We are partnering with Northern Illinois Food Bank.

# IMPLEMENTATION

We collected non-perishable food items in our school for one week. For every food item the students brought in, they would receive a raffle ticket that would enter them to win a \$25 Amazon gift card.

We also collected food at Parent-Teacher Conferences.

# OUTCOMES

1. We took this project to heart and really pumped it up to our peers. This led to the students donating more food than ever!

The collected food will be donated to the Northern Illinois Food Bank which will partner with CMMS Student Council to host our very first Mobile Food Pantry on December 15th!

1. What did we learn from the experience?
  - We learned that hunger affects many children in our immediate area.
  - We learned that working together to reach a common goal can be attained with dedication and teamwork.

**FOOD DRIVE**

Created by: Gabbi Oursu (7C)

←————→

Date: November 1<sup>st</sup> thru 9<sup>th</sup>  
When: Bring to 1<sup>st</sup> hour

1  = 1  (Winner announced: November 13<sup>th</sup>
